Santosh Dangi

Web Developer

Fresh web developer who is self-motivated and capable of using technological skills for the benefit of the business. A Bachelor's degree in Software Engineering has improved my expertise in designing web apps, and I am looking forward to working in a competitive setting that will improve my overall learning.

EXPERIENCE

Softwarica College of IT & E-Commerce

YakStore (Ecommerce Website) - Full Stack Development / March, 2021 - April, 2021

This is an e-commerce website where users may buy items, checkout, and order products, while administrators can add products, update products, remove products, and verify order products.

YATRI Blog (Website) - Full Stack Development / January, 2022 - February, 2022

This website was built with NodeJS and Reacts. Users can post blogs, edit blog posts, remove blog posts, comment on posts, and so on. The user may just see the blog collection.

destination blog (Android Mobile Application) / January, 2022 - February, 2022

Flutter and Reacts were used to create this mobile application. Users can post blogs, edit blog posts, remove blog posts, comment on blog posts, etc. The user can just view a collection of blogs.
